Transport activity  
1<sup>st</sup> quarter 2013

---

**Transport of goods increased in national ports but decreased in rail and road modes**  
**Movement of passengers upwards in airports but downwards in railway and inland waterways**

The movement of goods in national maritime ports increased by 3.2% in year-on-year terms (-5.8% in the 4<sup>th</sup> quarter 2012), as a result of a 6.3% (-4.8% in the 4<sup>th</sup> quarter 2012) rise in international traffic and a decline of 10.8% in transport between national ports (-11.4% in the 4<sup>th</sup> quarter 2012).

The movement of passengers in national airports grew by 2.5% vis-à-vis the same quarter of the previous year (+3.3% in the 4<sup>th</sup> quarter 2012); on the other hand, the movement of cargo and mail decreased by 5.2% (-2.1% in the 4<sup>th</sup> quarter 2012).

The number of passengers transported was lower in inland waterways (-11.0%), in heavy railway mode (-13.4%) and light railway systems (-13.9%). Considering the previous quarter these change rates were -11.5%, -12.2% and -12.6%, respectively.
