Air transport and tourism activity

2013

---

## **Movement of passengers in national airports increased by 4.9%**

In 2013, commercial traffic in airport infrastructures increased by 1.5% in landed aircraft and by 4.9% in the movement of passengers. The movement of cargo and mail kept the declining trend of the previous years with -2.1% and -11.0%, respectively.

International traffic operations represented 73.8% of the total movements in commercial traffic in 2013, a follow-up of the increases that have been recorded in the most recent years (70.8% weight in 2010; 71.5% in 2011 and 72.5% in 2012).
