

10 August 2020

Industry Turnover, Employment, Wages and salaries and Hours worked Indices June 2020

Industry Turnover Index decreased 11.7%

Industry turnover index registered a nominal year-on-year change of -11.7% in June (-30.9% in the previous month). The indices for the domestic and non-domestic markets declined by 9.2% and 15.1% (reductions of 23.3% and 41.3% in May, respectively). In the 2nd quarter of 2020, the year-on-year change in industry sales stood at -25.7% (-3.8% in the previous quarter).

Employment, wages and salaries and hours worked¹ recorded year-on-year variations of -2.9%, -2.7% and -9.5% (variations of -3.5% -6.0% and -21.4% in May, respectively).

The information in this press release, referring June 2020, reflects probably the situation determined by the pandemic COVID-19, either in economic behavior either in the amount of data for compilation of results presented. We call for the best collaboration by firms, households and public entities in answering, despite the present difficulties, to Statistics Portugal. The quality of official statistics depends crucially on this collaboration, which INE thanks in advance.
