EVOL.DA ACTIVIDADE NO COMERCIO  
MED.MOVEL DE 3 MESES

## **EVOLUÇÃO DO COMÉRCIO POR GROSSO E A RETALHO**

**NOVEMBRO 1998**

Em Novembro, o indicador “apreciação da actividade passada” revelou uma evolução positiva face ao mês anterior, em resultado do comportamento mais optimista de ambos sub-sectores, em particular do comércio a retalho (\*).

De igual modo, as apreciações sobre o volume de vendas apresentaram-se mais favoráveis face ao mês precedente, em resultado dos comportamentos no mesmo sentido observados nos dois sub-sectores. As perspectivas de encomendas a fornecedores evoluíram positivamente nos últimos meses, aproximando-se do valor mais elevado da série, alcançado no segundo trimestre do corrente ano, sendo particularmente significativa a contribuição do indicador do comércio a retalho, em especial desde Agosto passado.

As perspectivas de evolução da actividade para os próximos seis meses continuam fortes, embora se verifique uma tendência de desaceleração desde o final do primeiro trimestre do corrente ano. Este abrandamento tem sido devido ao comportamento no comércio por grosso, uma vez que o indicador no comércio a retalho manteve um perfil ascendente até Setembro. No conjunto do sector, as expectativas quanto ao aumento dos preços de venda continuam menos elevadas do que em igual período do ano precedente.
