

International Trade Statistics

July 2009

International Trade – Exports down by 22.4% and Imports by 24.9%

In the last three months (May to July 2009), exports decreased by 22.4% and imports by 24.9%, comparing to the same period in the previous year (May to July 2008), leading to a decrease in the deficit of the trade balance by 1 716.7 millions euros.

In imports of goods, *Mineral Fuels* recorded the largest drop in the 1st half of 2009, compared to the same period in 2008, mainly due to the price effect, since this type of product is very dependent on the evolution of prices in international markets. However, all product groups recorded decreases, reflecting the contraction in investment and domestic consumption.
