Portuguese Classification of Economic Activities - CAE-Rev.3 January 2008

Portugal will have a new Classification of Economic Activities, in January 2008

The Portuguese Classification of Economic Activities, Revision 3 (CAE-Rev.3), will replace after January 1, the present CAE-Rev.2.1, in use since 2003.

All Portuguese economic agents will have to readjust the codes that presently represent their activity (based on CAE-Rev.2.1) into the correspondent codes of CAE-Rev.3.

On October 23, Statistics Portugal holds a Seminar, in Lisbon, to present and debate with the users the new Classification' main changes.
