Industry Turnover, Employment, Wages and Hours worked Indexes April 2010

Slowdown of industrial turnover

Decreasing trend remains in employment, wage and hours worked

In April 2010, turnover in industry increased by 12.0% year-on-year terms, 4.6 percentage points lower than the previous month's rate. This result was determined by similar behaviour, although with different intensity, occurring on both markets, national (7.8% in April and 9.4% in March) and external (19.9% in April and 30.9% in the previous month).

Also in year-on-year terms employment, wages and hours worked (adjusted for calendar effects) decreased by 3.3%, 1.6% and 3.1% respectively.
