

Industrial Production Statistics 2015

Nominal growth of Industrial Production strengthened in 2015

The sales of production and industrial services reached in 2015, 77.3 billion Euro, rising 1.6% over to the previous year (0.4% in 2014).

Excluding that division, the value of the production of the remaining activities improved 3.3% in 2015 (2.9% in 2014). The negative performance of the division's sales reflected the significant decrease in the prices of petroleum products in the international markets.
