Social Indicators

2009

Social Indicators 2009

The publication *Social Indicators* contains a set of statistical results derived to the foremost social variables, or relevant for the study of changes observed in this field. It is organised in eleven thematic chapters, each presenting the appropriate indicators and charts, preceded by a summary.

Whenever available, international comparisons are presented, namely with the European Union (EU27).

All data inserted in this publication are available at www.ine.pt
