Social Indicators 2006

Statistics Portugal disseminates the main Social Indicators concerning year 2006. Data concerning these results are available at www.ine.pt/publicações.

The aim of the publication *Social Indicators* is the annual updating of statistical data of social nature. This edition is grouped in eleven thematic chapters containing the most relevant indicators in each domain.

In some of these chapters indicators for the European Union are also included in order to allow a comparison with the Portuguese situation.
