## New Orders received in Construction

### First Quarter 2008

---

#### New Orders in Construction and Public Works with positive evolution

In 2008 Q1 new orders in construction and public works had a year-on-year change of 8.0%. This trend reflects opposite behaviours of Civil Engineer, which registered a high growth, and Building Construction, that remains with negative change. From the previous quarter, new orders increased by 4.0%. The annual average change was -8.7%.
