Evolution of the average value of bank appraisals per square meter in Euros

January 2011 – April 2018

EXPLANATORY NOTES

The information reported in this press release is based on bank appraisals data taken from a survey sent to the financial institutions that provide loans for the acquisition of residential properties. The survey covers a total of eight reporting units, which represent around 90% of the total amount of housing loans provided in Portugal.

The geometric mean is used to calculate the average value of bank appraisals per square meter of useful floor space. A moving average of three months is used to compile monthly averages.

More information on this statistical product can be obtained from Statistics Portugal's [website](#) (information only available in Portuguese).
