Sustainable Development Goals Indicators
2010-2017

New digital publication on Sustainable Development Goals Indicators

Statistics Portugal is launching today the first national publication on the statistical monitoring of the UN 2030 Agenda, entitled "Sustainable Development Goals: Indicators for Portugal | 2030 Agenda".

The **2030 Agenda for Sustainable Development** was adopted by the United Nations General Assembly in September 2015. This universal and inclusive Agenda comprises **17 Sustainable Development Goals (SDGs)** and 169 targets, covering worldwide social, economic and environmental concerns, namely:

SDG 1 - End poverty in all its forms everywhere

SDG 2 - End hunger, achieve food security and improved nutrition and promote sustainable agriculture

SDG 3 - Ensure healthy lives and promote well-being for all at all ages

SDG 4 - Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

SDG 5 - Achieve gender equality and empower all women and girls

SDG 6 - Ensure availability and sustainable management of water and sanitation for all

SDG 7 - Ensure access to affordable, reliable, sustainable and modern energy for all

SDG 8 - Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

SDG 9 - Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

SDG 10 - Reduce inequality within and among countries

SDG 11 - Make cities and human settlements inclusive, safe, resilient and sustainable

SDG 12 - Ensure sustainable consumption and production patterns

SDG 13 - Take urgent action to combat climate change and its impacts

SDG 14 - Conserve and sustainably use the oceans, seas and marine resources for sustainable development

SDG 15 - Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss

SDG 16 - Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

SDG 17 - Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development

In order to comprehensively measure progress towards the implementation of the Agenda, the UN adopted a **list of global indicators**, for which this publication presents those mainly produced or disseminated within the National Statistical System, allowing a statistical reading of the national performance vis-à-vis the SDGs, from 2010 up to the most recent year available.

The performance of each indicator is briefly analysed, including where available and relevant data with geographical breakdown at NUTS 3 level and municipality level. The statistical analysis is complemented by background notes on the 2030 Agenda and the state of play of its follow-up and implementation plans in Portugal.

This bilingual publication aims at complementing other dissemination formats, such as the **national platform**, available at Statistics Portugal website since April 2017, as well as a **press release of May 2017**.

The publication enables interactive functionalities for some indicators, such as the consultation of multiple analytical dimensions, whenever applicable and relevant. This publication presents the most recent available information up to 17 May 2018.

It is important to note that the information provided will be progressively updated in the above-mentioned national platform, reflecting in particular the relevant international developments in the framework of the 2030 Agenda monitoring.
