#### STATISTICAL YEARBOOK OF PORTUGAL NOW ON ITS 113<sup>TH</sup> EDITION

This edition of the Statistical Yearbook of Portugal (SYB) marks the 113<sup>th</sup> edition of this publication, its first edition having been published in 1877, with data referring to 1875.

The SYB 2021 is organized into 30 subchapters, distributed in four thematic groups (The Territory, The People, The Economic Activity, and The State), reporting to data available as of 15 June 2021.

This edition presents, in each subchapter, a summarized statistical analysis, and an infographics page, allowing a quick understanding of the highlighted phenomena.

On Statistics Portugal's website ([www.ine.pt](http://www.ine.pt)), the statistical information on the SYB is also available in XLS/CSV tables, in the form of extended time series and a geographical breakdown at NUTS I and II levels, allowing for chronological and geographical comparability.

Most indicators presented in each subchapter have a link to Statistics Portugal's dissemination database, which is regularly updated, making it possible to access the most recent data at any time, as well as methodological notes.

To promote citizenship and statistical literacy among citizens in general and the student population, the SYB is offered to all municipal libraries in the country as well as all libraries of public and private secondary education institutions and universities.

The SYB is available in paper and PDF, in a bilingual version (Portuguese/English). In the *Publications* menu of Statistics Portugal's website, one can access all previous editions of the SYB.
