

21st September 2023

HOUSE PRICE INDEX

2nd quarter of 2023

HOUSE PRICES INCREASED 8.7% AND THE NUMBER OF TRANSACTIONS DIMINISHED BY 22.9%

In the 2nd quarter of 2023, the House Price Index (HPI) grew by 8.7% year-on-year, the same rate of change as in the previous quarter. In this period, the prices of existing dwellings increased at a higher pace than those of new dwellings, 9.0% and 8.0%, respectively.

Compared to the previous quarter, the HPI increased by 3.1% (1.3% in the previous quarter). By category, prices of existing dwellings increased by 3.2%, above what was observed for new dwellings (2.8%).

Between April and June 2023, 33,624 dwellings were transacted with a total value of 6.9 billion euros, a reduction of 22.9% and 16.7%, respectively, compared to the same period of the previous year.

In the 2nd quarter of 2023, Households acquired 28,732 dwellings (85.5% of the total), for a total of 5.8 billion euros (83.8% of the total). In the reference quarter, housing transactions involving buyers with a tax residence outside the *National Territory* totalled 2,535 units (7.5% of the total), representing a year-on-year decrease of 8.9%.

HOUSE PRICE INDEX – 2nd quarter of 2023

1. House Price Index (100 = 2015)

In the 2nd quarter of 2023, the HPI registered a year-on-year rate of change of 8.7%, the same growth as in the previous quarter. By category, existing dwellings recorded a price increase of 9.0%, 0.7 percentage points (pp) less than in the previous quarter. For new dwellings, the price increase was 8.0% (5.7% in the 1st quarter of 2023).

The HPI grew by 3.1% between the 1st and 2nd quarter of 2023 (1.3% in the 1st quarter of 2023 and 3.1% in the 2nd quarter of 2022). In this period, both categories of dwellings showed an increase in prices, which was more pronounced in the case of existing dwellings (3.2%), compared to new dwellings (2.8%).

The rolling 4-quarter rate of change of HPI stood at 10.4% in the 2nd quarter of 2023, 1.1 pp below the rate recorded in the previous quarter. Between April and June 2023, the rolling 4-quarter rate of change of existing dwellings prices was higher than that observed in new dwellings, 11.4% and 7.3%, respectively.

2. Number and value of House Transactions

Between April and June 2023, 33,624 dwellings were transacted, corresponding to a year-on-year rate of change of -22.9% (-20.8% in the 1st quarter of 2023). This was the fourth consecutive quarter in which a reduction in the number of transactions was observed. In the 1st quarter of 2023, existing dwellings accounted for the majority of the transactions (79.7%) having totalled 26,799 units, 25.0% less than in the same period of 2022. Regarding new dwellings, there were 6,825 transactions, a reduction of 13.2% compared to the 2nd quarter of 2022.

The number of transactions decreased by 2.5% between the 1st and 2nd quarter of 2023 (-10.5% in the previous quarter). In this period, the reduction in the number of transactions was more expressive in the case of existing dwellings (-2.6%), compared to new dwellings (-2.1%).

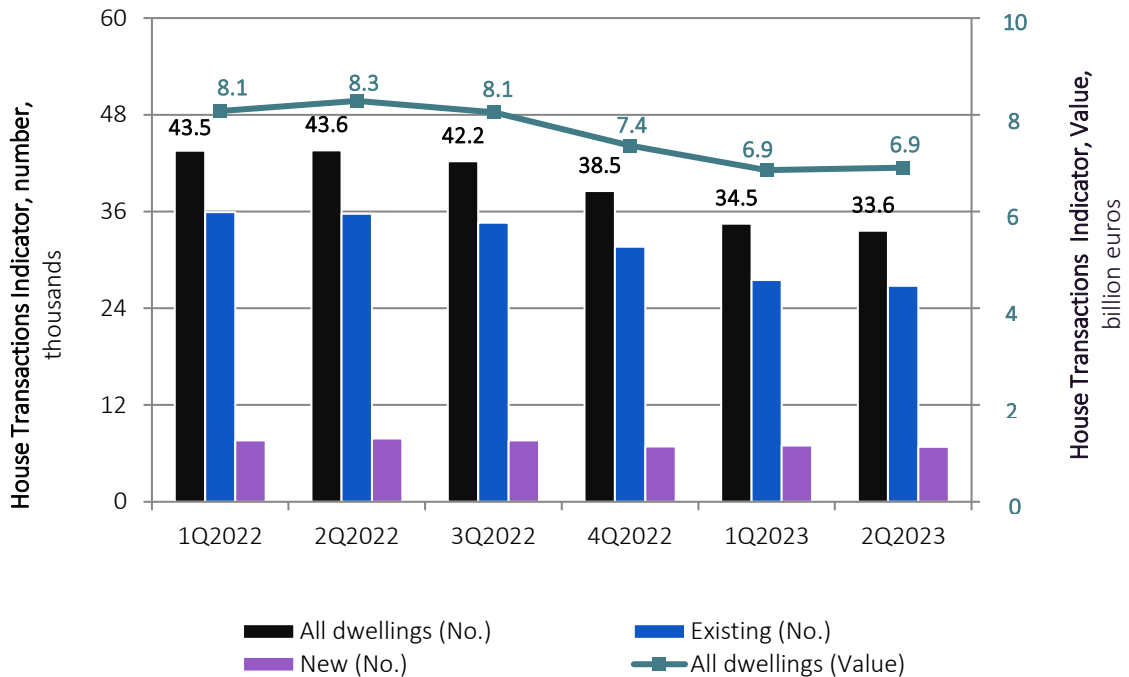

Housing transactions in the 2nd quarter of 2023 totalled approximately 6.9 billion euros, which represents a decrease of 16.7% compared to the same period of 2022. Of the total value transacted, 5.0 billion euros corresponded to transactions of existing dwellings (a reduction of 20.7% compared to the same period of 2022) and 1.9 billion euros were related to transactions of new dwellings (a year-on-year reduction of 4.1%).

Compared to the previous quarter, the value of dwellings transacted in the 2nd quarter of 2023 increased by 0.7% (-6.9% in the 1st quarter of 2023). By category, there was a decrease in the value of transactions of existing dwellings (-0.1%) and an increase in the value of transactions of new dwellings (2.9%).

The following figure depicts the evolution of the number and value of sales of dwellings in the last six quarters.

Figure 2. House Transactions Indicator, number and value, All-dwellings, Existing and New Dwellings, 1Q2022 – 2Q2023

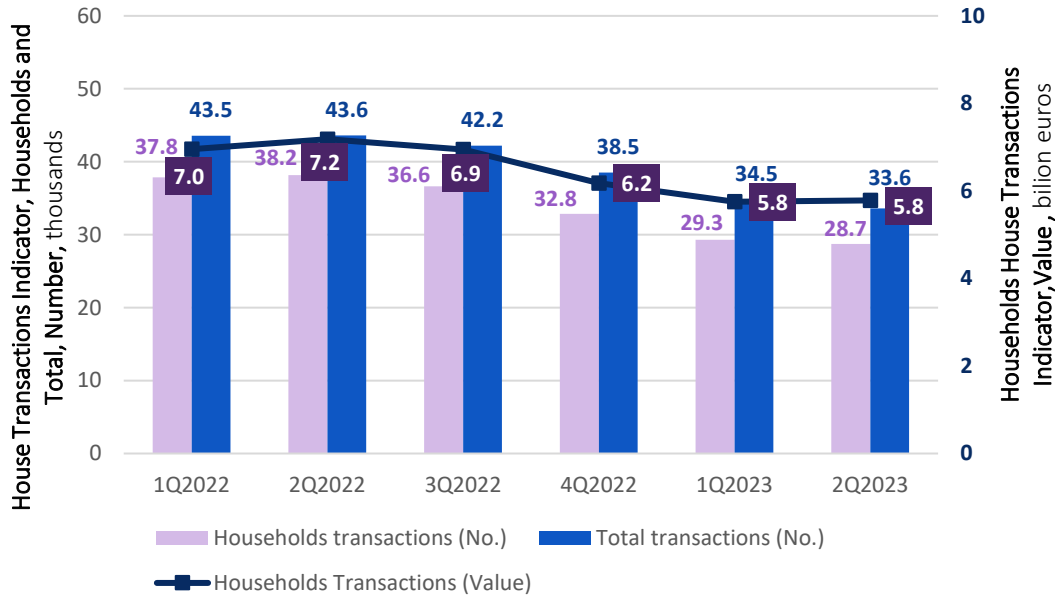

Source: INE, House Price Index.

In the 2nd quarter of 2023, dwellings purchased by Households totalled 28,732 dwellings, 85.5% of the total, 0.6 pp more than in the previous quarter. In the reference quarter, sales of dwellings to Households registered a reduction of 24.7% compared to the same period of 2022 and a rate of change of -1.9% from the previous quarter. The transactions made by Households corresponded to 5.8 billion euros, 83.8% of the total, the lowest percentage since the 1st quarter of 2020. In year-on-year terms, the value of houses purchases by Households decreased by 19.5 % (-17.3 % in the 1st quarter of 2023).

Figure 3. House Transactions Indicator, Households and Total, Number and Value, 1Q2022 – 2Q2023

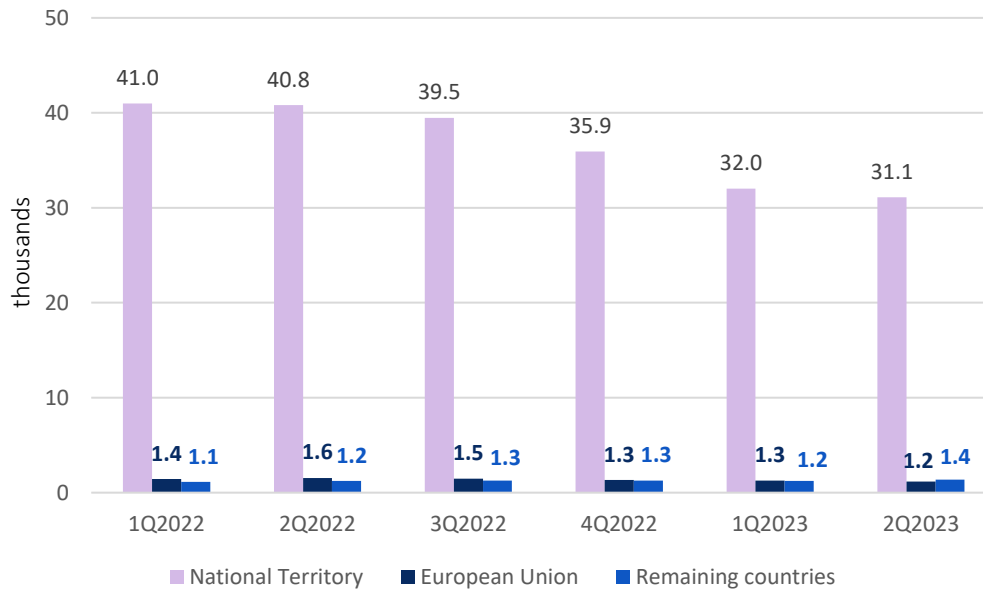

Source: INE, House Price Index.

Between April and June 2023, 31,089 dwellings were sold to buyers with a tax residence in the *National Territory*, down by 23.8 % year-on-year and a reduction of 2.8 % on the previous quarter. In this period, sales of dwellings to buyers with tax residence outside the *National Territory* decreased by 8.9%, to a total of 2,535 units, representing 7.5% of the total, the highest percentage in the series started in the 1st quarter of 2019. Transactions from buyers with tax residence outside the *National Territory*, for the second consecutive quarter, showed different behaviours in the two categories analysed. Purchases from buyers with tax residence in the *European Union* totalled 1,174 units, 24.5% less than in the same period of 2022. Regarding the tax residence category *Remaining Countries*, there was an increase of 10.8% in the number of transactions to 1,361 dwellings.

Figure 4. House Transactions Indicator, Number, by tax residence of the purchaser, 1Q2022 – 2Q2023

Source: INE, House Price Index.

In the 2nd quarter of 2023, 9,696 dwellings were transacted in *Área Metropolitana de Lisboa*, 28.8% of the total number, 1.8 pp less than in the same period of the previous year. The *Norte* and *Centro* regions, with 9,628 and 7,489 transactions respectively, were the only ones to show increases in their respective regional shares, 1.2 pp and 1.6 pp, by the same order. In the *Algarve*, 2,946 dwellings were sold, 8.8% of the total, corresponding to a year-on-year decrease of 0.8 pp. In *Alentejo* and in the *Região Autónoma da Madeira*, there were 2 537 and 795 transactions, respectively. In terms of relative shares, the transactions carried out represented 7.5% and 2.4%, by the same order, corresponding, in both cases, to a reduction of 0.1 pp compared to the same period last year. In the *Região Autónoma dos Açores*, 533 dwellings were transacted, equivalent to a regional share of 1.6%, identical to that of the same period of 2022.

In the reference quarter, the value of dwellings transacted in *Área Metropolitana de Lisboa* stood at 2.9 billion euros (42.5% of the total), above the amount recorded in the *Norte* region, 1.6 billion euros (23.1%). Both regions recorded year-on-year increases in their respective regional shares, 0.5 pp and 0.8 pp, by the same order. Another region that increased its relative weight was the *Centro*, up 0.6 pp to a total of 13.5%, corresponding to a value of 934 million euros. Of the other regions, the *Algarve*, with a value of 889 million euros, recorded the largest reduction in its relative weight, -1.6 pp, totalling 12.9%. In *Alentejo*, dwellings transacted totalled 292 million euros, representing 4.2% of the total (-0.3 pp year-on-year). In the *Região Autónoma dos Açores*, the value of dwellings transacted totalled 75 million euros, 1.1% of the total, while in the *Região Autónoma da Madeira* it amounted to 186 million euros, corresponding to a relative weight of 2.7%.

The next figure shows the distribution of the number and value of house transactions by NUTS II region for the 2nd quarter of 2023.

Figure 5. Percentage distribution of the number and value of house transactions, by NUTS II, 2nd quarter of 2023
(percentage points difference compared with the same period in the previous year)

METHODOLOGICAL NOTES

House Price Index

The House Price Index (HPI) measures the evolution of the acquisition prices of the dwellings purchased by Households in the residential market in Portugal. The HPI is compiled using anonymized fiscal administrative information provided by the Tax and Customs Authority on the Municipal Property Transfer Tax (IMT) and the Municipal Property Tax (IMI).

The HPI is derived through the estimation of a functional relationship between the logarithm of the transaction prices of dwellings and their characteristics (e.g., area, location), being included in the probabilistic models of hedonic prices. The estimation is performed quarterly with data from two adjacent quarters. With this approach, it is possible to estimate the rate of change of prices controlling for changes in the quality of dwellings.

The HPI is a chained index with base 100 = 2015. The followed methodology enables the weighting structure to be updated annually with information on the value of dwelling transactions in the year immediately preceding the year in which the index refers.

ACRONYMS AND DESIGNATIONS

Quarterly rate

The quarterly rate is the change in the index of a certain quarter compared with the index of the previous quarter expressed as a percentage. Although up-to-date, this measure can be affected by seasonal and other effects.

Annual rate

The annual rate is the change in the index of a certain quarter compared with the index of the same quarter in the previous year expressed as a percentage. In the presence of a stable seasonal pattern, seasonal effects do not influence this measure.

4-quarter average rate

The rolling 4-quarter average rate is the change in the average index of one year compared with the average index of the previous year expressed as a percentage. This moving average is less sensitive to transient changes in prices.

Households

Institutional sector that consists of individuals or groups of individuals as consumers and entrepreneurs producing market goods and non-financial and financial services (market producers) provided that the production of goods and services is not by separate entities treated as quasi-corporations. It also includes individuals or groups of individuals as producers of goods and non-financial services for exclusively own final use.

New dwellings

Dwellings that, at the time of the transaction, had never been used for residential purposes.

Existing dwellings

Dwellings that, at the time of the transaction, had already been used for residential purposes.

House Transactions Indicator

Indicator that estimates the number of dwelling transactions carried out in a quarter for the national total and the segments of new dwellings and existing dwellings. The compilation of this statistic is based on information from the IMT and is based on transactions of urban articles. In calculating this indicator are not considered, similarly to what happens with the estimation of the rate of change in prices between two successive quarters, transaction parts of dwellings (i.e., are considered only transactions of dwellings in full).

The number of transactions is available for the whole country and for the second level of geographical breakdown, as defined by the Nomenclature of Territorial Units for Statistics (NUTS II). For some levels of disaggregation, it is also available the breakdown between purchases by households and other institutional sectors, as well as by place of tax residence of the buyer.

House Value Indicator

As the indicator of the number of transactions, this statistic is based on information taken from the IMT on paid real estate tax. Following what was defined for the house transactions indicator, the total value of transactions does not cover transactions of parts of dwellings.

The value of transactions is also available to the second level of geographical breakdown, as defined by NUTS II. For some levels of disaggregation, it is also available the breakdown between purchases by households and other institutional sectors, as well as by place of tax residence of the buyer.

Tax residence

- a) Place of usual residence, for private or singular individuals;
- b) Place of the head office or place of effective management or, failing that, place of permanent establishment in Portugal for legal entities.

Presentation of data

In this press release, the descriptive analysis focuses on values rounded to one decimal place so that the sum of the disaggregated values may not correspond to the value presented for the national total.

Additional information

Further methodological information on the HPI is available on the National Statistics Institute website (<https://smi.ine.pt/DocumentacaoMetodologica/Detalhes/1699>; available only in Portuguese).
