

26th December 2023

HOUSE PRICE INDEX

3rd quarter of 2023

HOUSE PRICES INCREASED 7.6% AND THE NUMBER OF TRANSACTIONS DIMINISHED BY 18.9%

In the 3rd quarter of 2023, the House Price Index (HPI) increased by 7.6% year-on-year, 1.1 percentage points (pp) less than in the previous quarter. In the reference quarter, the rate of change of existing dwellings prices was 8.1%, higher than that of new dwellings (5.8%).

Compared to the previous quarter, the HPI rose by 1.8% (3.1% in the 2nd quarter of 2023). In this period, the growth of new dwellings exceeded that of existing dwellings, 2.0% and 1.8% respectively.

Between July and September 2023, 34,256 dwellings were sold, corresponding to a year-on-year rate of change of -18.9% (-22.9% in the previous quarter). In terms of value, transactions totalled 7.1 billion euros, 12.2% less than in the 3rd quarter of 2022. In the segment of new dwellings, there was an increase by 0.2% in the number and by 10.3% in the value of transactions.

In the 3rd quarter of 2023, dwelling purchases by Households reached 29,635 units (86.5% of the total), totalling 6 billion euros (84.7% of the total). During this period, buyers with a tax residence outside the *National Territory* purchased 2,741 dwellings (8.0% of the total), which represents a year-on-year decrease of 0.9%.

HOUSE PRICE INDEX – 3rd quarter of 2023

1. House Price Index (100 = 2015)

In the 3rd quarter of 2023, the HPI year-on-year rate of change was 7.6%, 1.1 pp less than in the previous quarter, resulting in the lowest price increase since the 1st quarter of 2021. In this period, the prices of existing dwellings grew more intensely compared to new dwellings, 8.1% and 5.8% respectively.

The HPI grew by 1.8% between the 2nd and 3rd quarters of 2023 (3.1% in the 2nd quarter of 2023 and 2.9% in the 3rd quarter of 2022). By category, existing dwellings increased by 1.8%, 1.4 pp less than in the previous quarter. For new dwellings, the rate of change stood at 2.0% (2.8% in the 2nd quarter of 2023).

The rolling 4-quarter rate of change of HPI was 9.0% in the 3rd quarter of 2023, which corresponds to a deceleration of 1.4 pp compared to the previous quarter. In this period, the increase in prices of existing dwellings (9.8%) exceeded that of new dwellings (6.6%).

2. Number and value of House Transactions

Between July and September 2023, 34,256 dwellings were transacted, which represents a reduction of 18.9% compared to the same period in the previous year (-22.9% in the 2nd quarter of 2023). Of all transactions, 26,644 (77.8% of the total) concerned to existing dwellings, corresponding to a year-on-year rate of change of -23.1%. New dwellings registered an increase in the number of transactions of 0.2%, totalling 7,612 units.

From the 2nd to the 3rd quarter of 2023, the number of dwelling transactions grew by 1.9% (-2.5% in the previous quarter). The number of transactions of new dwellings increased 11.5%, while a reduction of 0.6% was recorded for existing dwellings.

In the 3rd quarter of 2023, the value of dwelling transactions totalled 7.1 billion euros, of which 4.9 billion euros related to existing dwellings (70.0% of the total) and 2.1 billion euros to new dwellings. Compared to the same period in 2022, the value of transactions diminished by 12.2%, determined by the reduction in existing dwellings (-19.2%), while the value of new dwellings increased by 10.3%.

Compared to the previous quarter, the value of dwelling transactions in the 3rd quarter of 2023 increased by 2.4% (0.7% in the 2nd quarter of 2023). By category, there was an increase in the value of transactions for new dwellings (10.5 %) and a reduction for existing dwellings (-0.7 %).

The following figure depicts the evolution of the number and value of sales of dwellings in the last six quarters.

Figure 2. House Transactions Indicator, number and value, All-dwellings, Existing and New Dwellings, 2Q2022 – 3Q2023

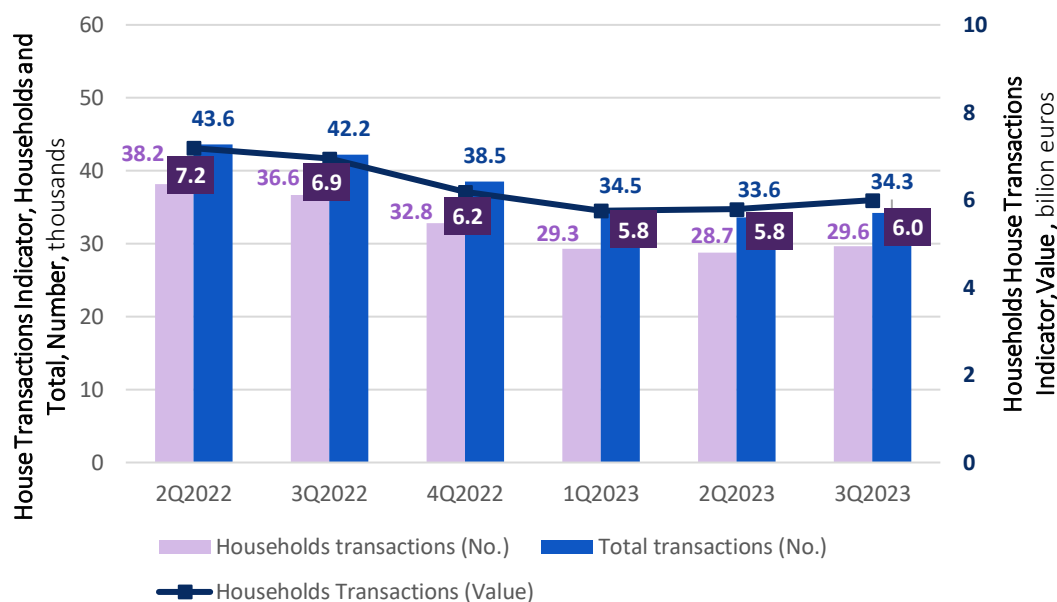

Source: INE, House Price Index.

In the 3rd quarter of 2023, Households acquired 29,635 dwellings, representing 86.5% of all transactions¹. This number of transactions represented a reduction of 19.1% compared to the same period in 2022, and a rate of change of 3.1% compared to the previous quarter. Dwellings sold to Households totalled 6 billion euros, resulting in a year-on-year rate of change of -13.7% (-19.5% in the previous quarter).

¹ Starting with this press release, for the indicators relating to the Number and Value of housing transactions, for the national total, the breakdown of results by category of housing unit, of dwelling acquisitions made by Households and by the Remaining Institutional Sectors is available on [INE's website](https://ine.pt) (from 2009 onwards).

Figure 3. House Transactions Indicator, Households and Total, Number and Value, 2Q2022 – 3Q2023

Source: INE, House Price Index.

Between July and September 2023, 31,515 dwellings were sold to buyers with tax residence in the *National Territory*, down by 20.1% year-on-year and an increase of 1.4% compared to the previous quarter. In this period, buyers with tax residency outside of the *National Territory* bought 2,741 dwellings (8.0% of the total), a decrease of 0.9% compared to the same period in 2022. Among the transactions involving buyers with tax residence outside the *National Territory*: the *European Union* category recorded a year-on-year decrease of 9.2% in the number of transactions (-24.5% in the 2nd quarter of 2023), to a total of 1,349 units; in the *Remaining Countries* tax residence category, there were 1,392 transactions, corresponding to a year-on-year increase of 8.7%, down on the previous quarter (10.8%).

Figure 4. House Transactions Indicator, Number, by tax residence of the purchaser, 2Q2022 – 3Q2023

Source: INE, House Price Index.

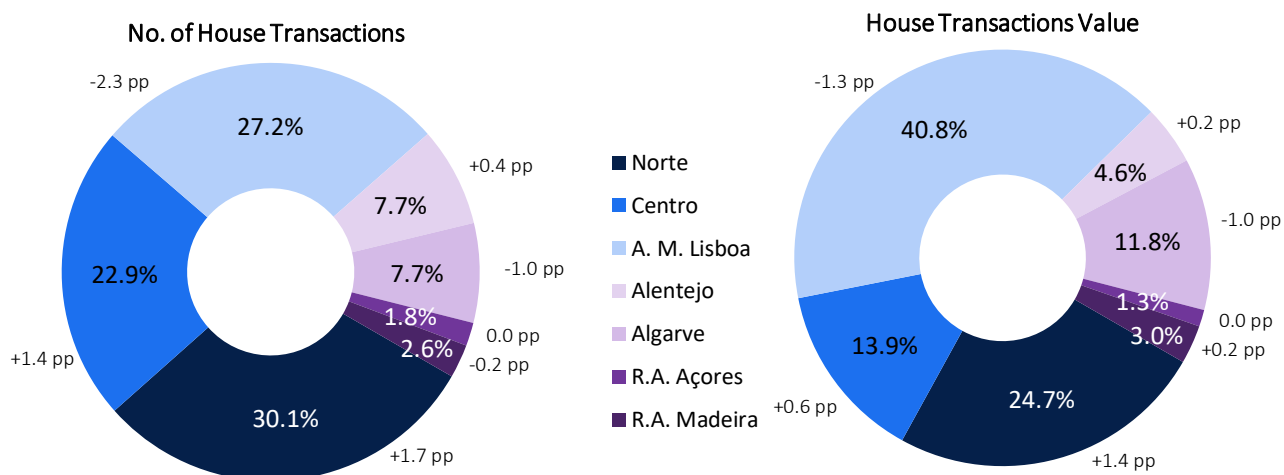

In the 3rd quarter of 2023, 10,314 dwellings were sold in the *Norte*, 30.1% of the total, 1.7 pp more than in the same period last year. Alongside the *Norte*, the *Centro* and *Alentejo*, with 7,857 and 2,634 transactions respectively, were the other regions to show increases in their respective regional shares, 1.4 pp and 0.4 pp, by the same order. The *Área Metropolitana de Lisboa* recorded 9,314 transactions, corresponding to a relative weight of 27.2%, 2.3 pp below the share in the same period in 2022. In the *Algarve*, 2,643 transactions accounted for 7.7% of the total, a reduction of -1.0 pp compared to the same period in the previous year. Dwelling transactions in the *Região Autónoma da Madeira* totalled 877 units, equivalent to 2.6% of the total, 0.2 pp less than in the same period in 2022. In the *Região Autónoma dos Açores*, 617 dwellings were transacted, corresponding to a regional share of 1.8%, identical to the same period in the previous year.

In the reference quarter, the *Área Metropolitana de Lisboa* accounted for 40.8% of the total value of dwelling transactions, approximately 2.9 billion euros, representing a year-on-year reduction of 1.3 pp in terms of relative regional weight. In the *Norte*, the value of dwelling transacted totalled 1.7 billion euros, while in the *Centro* it reached 982 million euros, both showing year-on-year increases in relative weights (1.4 pp and 0.6 pp, respectively). The *Algarve* recorded a value of transactions of 834 million euros, corresponding to a 11.8% regional share, down 1.0 pp compared to the same period in 2022. In the *Alentejo*, housing transactions totalled 322 million euros, representing 4.6% of the total (+0.2 pp year-on-year). In the *Região Autónoma da Madeira*, housing sales amounted to 212 million euros (3.0% of the total), while in the *Região Autónoma dos Açores* they reached 91 million euros (1.3% of the total).

The next figure shows the distribution of the number and value of house transactions by NUTS II region for the 3rd quarter of 2023.

METHODOLOGICAL NOTES

House Price Index

The House Price Index (HPI) measures the evolution of the acquisition prices of the dwellings purchased by Households in the residential market in Portugal. The HPI is compiled using anonymized fiscal administrative information provided by the Tax and Customs Authority on the Municipal Property Transfer Tax (IMT) and the Municipal Property Tax (IMI).

The HPI is derived through the estimation of a functional relationship between the logarithm of the transaction prices of dwellings and their characteristics (e.g., area, location), being included in the probabilistic models of hedonic prices. The estimation is performed quarterly with data from two adjacent quarters. With this approach, it is possible to estimate the rate of change of prices controlling for changes in the quality of dwellings.

The HPI is a chained index with base 100 = 2015. The followed methodology enables the weighting structure to be updated annually with information on the value of dwelling transactions in the year immediately preceding the year in which the index refers.

ACRONYMS AND DESIGNATIONS

Quarterly rate

The quarterly rate is the change in the index of a certain quarter compared with the index of the previous quarter expressed as a percentage. Although up-to-date, this measure can be affected by seasonal and other effects.

Annual rate

The annual rate is the change in the index of a certain quarter compared with the index of the same quarter in the previous year expressed as a percentage. In the presence of a stable seasonal pattern, seasonal effects do not influence this measure.

4-quarter average rate

The rolling 4-quarter average rate is the change in the average index of one year compared with the average index of the previous year expressed as a percentage. This moving average is less sensitive to transient changes in prices.

Households

Institutional sector that consists of individuals or groups of individuals as consumers and entrepreneurs producing market goods and non-financial and financial services (market producers) provided that the production of goods and services is not by separate entities treated as quasi-corporations. It also includes individuals or groups of individuals as producers of goods and non-financial services for exclusively own final use.

New dwellings

Dwellings that, at the time of the transaction, had never been used for residential purposes.

Existing dwellings

Dwellings that, at the time of the transaction, had already been used for residential purposes.

House Transactions Indicator

Indicator that estimates the number of dwelling transactions carried out in a quarter for the national total and the segments of new dwellings and existing dwellings. The compilation of this statistic is based on information from the IMT and is based on transactions of urban articles. In calculating this indicator are not considered, similarly to what happens with the estimation of the rate of change in prices between two successive quarters, transaction parts of dwellings (i.e., are considered only transactions of dwellings in full).

The number of transactions is available for the whole country and for the second level of geographical breakdown, as defined by the Nomenclature of Territorial Units for Statistics (NUTS II). For some levels of disaggregation, it is also available the breakdown between purchases by households and other institutional sectors, as well as by place of tax residence of the buyer.

House Value Indicator

As the indicator of the number of transactions, this statistic is based on information taken from the IMT on paid real estate tax. Following what was defined for the house transactions indicator, the total value of transactions does not cover transactions of parts of dwellings.

The value of transactions is also available to the second level of geographical breakdown, as defined by NUTS II. For some levels of disaggregation, it is also available the breakdown between purchases by households and other institutional sectors, as well as by place of tax residence of the buyer.

Tax residence

- a) Place of usual residence, for private or singular individuals;
- b) Place of the head office or place of effective management or, failing that, place of permanent establishment in Portugal for legal entities.

Presentation of data

In this press release, the descriptive analysis focuses on values rounded to one decimal place so that the sum of the disaggregated values may not correspond to the value presented for the national total.

Additional information

Further methodological information on the HPI is available on the National Statistics Institute website (<https://smi.ine.pt/DocumentacaoMetodologica/Detalhes/1699>; available only in Portuguese).
