Industry Turnover, Employment, Wages and Hours worked Indexes November 2009

Year-On-Year rate in Industry Turnover less negative Employment, Wages and Hours worked declined

In November 2009, the year-on-year rate of nominal Industry Turnover declined 4.1% (-10.7% in October). This evolution was determined by similar behaviours of both markets, but particularly of the external market where the turnover declined -1.6% in November and -14.3% in October. The turnover in the domestic market registered a year-on-year rate of -5.5% (-8.6% on the previous month).

Also in year-on-year terms, employment, wages and salaries and hours worked (adjusted of calendar effects) declined 5.7%, 4.0% and 7.6%, respectively.
