## TRANSPORT IN FOCUS

### Passenger air transport in Portugal and EU27 - 2007/2009

---

#### **Air Passenger Transport falls evenly across Europe in 2009**

In 2009, within the context of the international economic crisis, the dynamics of air transport in Europe reflected a fall of 5.7% over the previous year, in the movement of passengers in airports of the EU27 Member States. In national airports the downfall trend was less evident, with a 3.8% year-on-year decrease in the movement of passengers.
