## REGIONAL ACCOUNTS – Benchmark year 2006

1995-2007

### **New series of Portuguese Regional Accounts (1995-2007)**

Statistics Portugal presents a new series for the Portuguese Regional Accounts with 2006 as the new benchmark-year. This new series is consistent with the new one of Annual National Accounts, in methodological terms as well as in what refers to the data that may be compared between. Thus, with this release, the process of changing the benchmark year of National and Regional Accounts is fully accomplished.
