

Lilli Japiec

PhD in statistics and Director of Research and Development Department at Statistics Sweden

Dr Japiec has over 25 years of experience in statistics production, survey methodology and quality management. Recently she chaired the American Association for Public Opinion Research's (AAPOR) Task Force on Big Data together with Professor Frauke Kreuter.

Dr Japiec received her PhD in Statistics at University of Stockholm and her thesis treats different quality aspects of interview surveys. She has authored and co-authored a number of book chapters and research papers on survey quality topics and she was one of the editors of the monograph "Advances in Telephone Survey Methodology" (2008) published by Wiley. She has participated in and chaired different international survey quality teams and is former Scientific Secretary of the International Association of Survey Statistician (2005-2007).

Dr Japiec was a member of the European Leadership Group (LEG) on Quality (1998-2001). The team identified quality improvement needs in the European Statistical System. She was also a member of the Eurostat initiative Sponsorship on Quality in 2009-2011.

Dr Japiec was in charge of the implementation and certification of Statistics Sweden according to the ISO 20252 for Market, Opinion and Social Research.

She is a board member of the supporting members association of the Swedish Institute for Quality (SIQ). SIQ is a national quality foundation responsible for the Swedish Quality Award.
