

Pier-Giorgio Zaccheddu obtained his diploma in geodesy at the University of Bonn in 1998. From 1998 to 2000 he was affiliated to the governmental administration in the Federal State of North-Rhine Westphalia, by doing an inservice training in every section of official surveying and mapping and government administration. Since January 2001 he is staff member at the Federal Agency for Cartography and Geodesy (BKG). Within its Department Geo(spatial) Information he has been charged with tasks of international project management as well as of strategic and policy issues in the field of geo(spatial) information. He has been involved in the conception and implementation of the national SDI in Germany (GDI-DE) and in the work related to the INSPIRE initiative in Europe.

From 2006 to 2009 he was the project coordinator of the eContentplus-funded EuroGeoNames (EGN) project until 2009, aiming at setting up a geographical names infrastructure and services in order to better integrate geographical names data within a European SDI. From 2009 to 2013 he was the head of the administration office of the German Inter-ministerial Committee on Geo(Spatial) Information, responsible for the coordination and conduction of tasks on the federal level. Since 2009 he is the Convenor of the Working Group on Toponymic Data Files and Gazetteers of the United Nations Group of Experts on the Standardization of Geographical Names (UNGEGN). From April 2013 to September 2015 he was responsible for

the BKG president's staff unit and responsible for issues related to strategy, organisation and public relations of BKG. Since October 2014 he has been involved in the Regional Committee for Europe of the United Nations Global Geospatial Information Management Initiative (UN-GGIM: Europe) holding the position of Technical Leader of the Working Group on Data Integration, specifically focusing on the integration of geospatial information and statistics. Since October 2015 he is the head of the section for International Affairs established in the department Geo(spatial) Information of BKG and responsible for the coordination of the international geospatial activities.
